

THE NEW EXPEDITION CRUISE SHIP *MINERVA*

Oceanview Stateroom

Balcony Suite

Observation Lounge

Sauna

Club

Café/Bar with swimming pool

Swan Hellenic's *Minerva* is a new-generation expedition cruise ship. Although at 10,500 tons the ship is large enough to accommodate more than 250 passengers, *Minerva* will accommodate a maximum of 152 guests in 76 spacious staterooms and balcony suites. The low guest density results in one of the most generous indoor and outdoor space-to-guest ratios among cruise ships. *Minerva* has been designed to meet the stringent requirements of the new Polar Code for ships navigating in Polar regions. Its high PC5 Category A ice-strengthened hull, and other technical and mechanical features allow the ship to cruise the world's remote regions in safety and utmost comfort. Technologically advanced hybrid engines and a system of powerful batteries make it possible for the ship to cruise in ecologically sensitive areas, leaving minimal footprint, while a computer-controlled Dynamic Positioning System allows the ship to maintain position without anchoring. Operated by a complement of 120 experienced European officers and international crew members, *Minerva* will carry a fleet of Zodiacs, versatile landing boats, kayaks, and a Remotely Operated Vehicle (ROV) that will reveal marine life in the deep. Powerful stabilizers provide a smooth ride. All staterooms and suites face outside and are equipped with private facilities, climate control, TV, Wi-Fi and USB connections as well as other amenities. Of the ship's 76 staterooms, 60 have balconies. Public areas include a spacious observation lounge that is equipped with state-of-the-art facilities for lectures and presentations; a club lounge; a restaurant that accommodates all guests at one seating; an outdoor café/bar that surrounds the heated swimming pool; a wellness area with gym, spa and sauna that includes an adjoining outdoor jacuzzi; library; beauty salon; a "mud room" with lockers for storing expedition gear; and an infirmary that is attended by a full-time doctor. The ship also features expansive open-deck areas. Two elevators connect all decks. Attentive service is provided on a 24-hour basis.
