# AMAZON RIVER EXPEDITION

Wake up in the heart of the Amazon River Basin, where the dense jungle teems with the greatest diversity of plant and animal life on Earth and the perfect serenity of the river is broken only by the occasional fisherman paddling by in a traditional dugout canoe.

Leave the modern world behind as you begin your nine-day voyage of discovery into one of the world's most remote regions. Spend two nights in Peru's capital city of Lima before embarking on a five-night river cruise through the tributaries of the Peruvian Amazon and the Pacaya-Samiria National Reserve—the largest wetlands refuge on the planet.

Trace the colonial history of UNESCO-inscribed Lima on a city tour that includes stops at its Plaza de Armas and the lavish Casa de Aliaga. Watch for toucans, pink and gray dolphins, and tamarin monkeys on private guided excursions through the rainforest, including a nighttime jungle outing that takes you on a quest for such nocturnal animals as caiman and bats. Savor picnic lunches under a spectacular rainforest canopy and enjoy immersive experiences throughout your journey, including one that has you planting a tree in the rainforest to ensure its survival for years to come.

## National Trust Tours

Dear National Trust Traveler:

Journey to the mysterious Amazon River Basin, where the biodiversity of Earth's largest rainforest ecosystem encompasses rare birds and protected wildlife that can be found nowhere else on Earth.

This nine-day, seven night land and river itinerary features an exclusively chartered cruise aboard the deluxe river boat ZAFIRO, designed to navigate the remote tributaries of the Peruvian Amazon and the protected Pacaya-Samiria National Reserve. Conservation and environmental mindfulness are important to us, and the cruise company operating the vessel helps preserve native flora and fauna and respect the rainforest and its inhabitants with its practice of responsible tourism, including equipping the boat with silencers to minimize noise pollution that might disturb Amazonian wildlife. On board and on excursions, English-speaking naturalists will guide us through this fragile biome to see endemic butterflies, endangered pink river dolphins, squirrel-sized tamarins, resplendent bird-life, and enormous blooming water lilies.

Walk through forests, where the number of butterfly species climbs into the thousands, and look for colorful large-billed toucans, blue-and-gold and scarlet macaws, kites, hawks, jabiru storks, and the distinctive hoatzin. Gain further insight into the culture of the indigenous *riberños* people during visits to two Amazon villages.

Complete your Peruvian expedition with the Machu Picchu and the Sacred Valley Post-Program Option. This outstanding small group expedition is a great value. Reserve now while space is available.

Sincerely,

Meg Annacone-Poretz

# PROTECTING OUR PLANET

Winding over than 4,400 miles from the Andes Mountains to the Atlantic Ocean, the Amazon River flows through nine South American countries and vast tracts of virgin rainforest producing one fifth of the world's freshwater supply. More than one-third of all species recorded in the world are found in the Amazon River Basin, constituting the largest plant and animal species on Earth. This majestic, jungle-fringed region is also home to many indigenous river peoples, or *riberleños*, who have lived in harmony with the forest for centuries.

Often referred to as the "lungs of the planet," the Amazon River Basin is home to the world's largest tropical rainforest and plays a vital role in regulating Earth's climate and producing oxygen—despite the fact that survival of its wondrous species remains under threat from deforestation, mining, and agriculture. Efforts are being made to protect this natural treasure and its inhabitants—including conservation initiatives, sustainable development projects, and a drive to promote eco-tourism. However, much more needs to be done to ensure that its people, plants, and animals can thrive for generations to come.

## POST-PROGRAM OPTION

### Machu Picchu and the Sacred Valley

**October 6 to 11** (Tour ends October 11)

Delight in this extraordinary opportunity to experience Machu Picchu, the majestic “lost city of the Incas,” the lush Sacred Valley, and the colonial and Inca traditions of Cusco.

Perched on an awe-inspiring mountain range in the Peruvian Andes, Machu Picchu was obscured from humankind for 400 years until Yale Professor Hiram Bingham literally stumbled upon it in 1911. A century of extensive research and study still has not revealed the secrets of its purpose, its residents, or its abandonment; nevertheless, this UNESCO World Heritage Site has been carefully excavated and preserved.

Admire the spectacular archaeological sites of the beautiful Sacred Valley where ancient engineering marvels, such as the Inca site of Ollantaytambo, stand as lasting testimony to the powerful and far-reaching Inca Empire. Here, village craftsmen employ age-old techniques to weave intricate tapestries and sculpt colorful pottery.

In the historic Inca capital of Cusco, a World Heritage site, see the Inca stone fortress of Sacsayhuamán and grand Baroque- and Renaissance-style churches that provide a fascinating mix of pre-Columbian and colonial influences.

Enjoy deluxe, ideally located accommodations in the Sacred Valley, Machu Picchu, and Cusco.

**Price per person, based on double occupancy: \$2,965**

**Price per person, based on single occupancy: \$3,845**
