CIRCUMNAVIGATION OF ICELAND

Adventure awaits in this stunning Nordic wonderland where nature reigns supreme. With its mystical landscapes, friendly locals, a lively tourism scene, and millions of curious little puffins, Iceland wows visitors at every turn. Each day reveals more of Iceland's natural phenomenon and myriad gems, from black beaches to cerulean icebergs and impressive waterfalls.

Begin in cosmopolitan Reykjavik, the world's northernmost capital and a vibrant example of Iceland's egalitarian society. Cruise to seldom-toured islands and coastal hamlets where the mythic lore and epic sagas of Iceland's national identity are passed down through generations. Glide into Siglufjörður, walk across the Arctic Circle on Grímsey Island, touch ice fragments calved from Breiðamerkurjökull glacier, and stand in the mist of thundering Goðafoss waterfall. Uncover remarkable history on Heimaey Island, where houses hemmed by hardened lava flow from Eldfell volcano are clustered beneath towering cliffs populated by multitudes of birds. During your cruising adventure, keep watch for orcas, gregarious humpback whales, and playful harbor porpoises. This epic destination will tantalize all your senses!

GUEST SPEAKER

FELICITY ASTON MBE

There is an anecdote on Felicity Aston MBE's website that talks about her first "expedition" at the age of nine, which involved "being bribed" up a modest peak in England by her parents. Aston, now one of the most accomplished polar explorers and climate scientists of modern times, says this childhood milestone changed her life. Today, she is both the only woman in the world to have skied across Antarctica alone and the first person in the world to have traversed the continent purely by muscle power, which gave her a place in the *Guinness World Records*. Her polar career began two decades ago when she traveled to Antarctica as a meteorologist with the British Antarctic Survey. By age 23, she was monitoring climate change at the Rothera Research Station on the Antarctic Peninsula. Her Kaspersky Lab Commonwealth Antarctic Expedition was the first to "Tweet to the Pole" and material from her Pole of Cold expedition has been developed into a traveling art exhibition. Aston has since written five books and produces articles for publications in the U.K. and abroad. She is also owner of Iceland's beautiful Vigur Island, where she lives with her family.
