

# MS VIVA ENJOY

## The Scylla Quality

All ships in the fleet of modern river cruise liners in Europe sail under the Swiss flag. Their uniqueness lies in the Scylla-touch in design, construction and service. The goal? Keep on revolutionizing the sector. Next to looking after guests and crew, Scylla also takes care of the environment. Refuse presses, environmentally friendly diesel engines and a biological sewage plant on most of their ships limit the environmental impact to a minimum.

On board MS Viva Enjoy, guests are welcomed by friendly, multilingual and international crew members who take care of their well-being and comfort on board from morning till night.

## About Scylla

Scylla still is a family-owned company. True to its traditions and personal approach. Nevertheless, the company has undergone big transformations. The fleet consists of 30 ships that excel in technology, design and quality. The greatest achievement: numerous repeat guests and the long-term partnerships with their partners. Those are the standards to confirm that Scylla is sailing the right course.

Gohagan's partnership with Scylla ensures that everything is taken care of to create unforgettable experiences.
